

Trying to stop XM Radio from providing instant traffic and weather is about as idiotic as stoping FM, or even AM from doing it. Besides, who wants to wait 30 minutes plus on an FM or AM radio station to get traffic info, when they need it at that moment. Also, the urgent news when flashing signs on the side of the freeways near my town, are worthless, and have provided no useful information to me as of today. Maybe you all should catch up to XM Radio.
